WHAT

The Alameda Corridor-East Project (ACE) continues construction on the Fairway Drive Grade Separation Project at the railroad crossing in the City of Industry and unincorporated community of Rowland Heights. The project consists of building a bridge at the Union Pacific railroad tracks to carry trains over Fairway Drive and an underpass for vehicular traffic. The new roadway will include pedestrian and motorist safety improvements and walkways with protective railing. In addition, there will be improvements and grade changes at the intersections of Fairway Drive and Walnut Drive North and Business Parkway. Upon completion, traffic congestion, potential collisions with trains and train horn noise will be eliminated.

WHEN

Major construction commenced with the closure of Fairway Drive between Walnut Drive North and Business Parkway to vehicular and pedestrian traffic on Thursday, June 7, 2018. Most construction occurs weekdays between 7 a.m. and 5 p.m. Completion of construction is anticipated for Spring 2023.

WHAT TO EXPECT

Fairway Drive will be closed north of Walnut Drive North and south of Business Parkway. Motorists and pedestrians are encouraged to use the recommended detours (see map on reverse). Lemon Avenue will serve as a major detour route for north-south traffic. Access to local businesses and residences will be maintained.
