**8-WEEK CLOSURE OF FAIRWAY DRIVE RAMPS
 FOR STATE ROUTE 60 AND INTERSECTION OF
 FAIRWAY DRIVE AND WALNUT DRIVE NORTH**

CITY OF INDUSTRY – As part of the ongoing construction of the Fairway Drive Grade Separation Project, the Alameda Corridor-East Project (ACE) has scheduled an 8-week closure of both **westbound and eastbound Pomona Freeway (SR-60) on- and off-ramps at Fairway Drive** for roadway widening and reconstruction, ramp realignment and paving. In addition, traffic lanes on **northbound and southbound Fairway Drive and eastbound and westbound Walnut Drive North** will be closed to through traffic at the Fairway Drive and Walnut Drive North intersection.

The closures will begin at midnight on Monday, August 20, 2018 and continue through Monday, October 15, 2018 at 5 a.m. Lemon Avenue and Nogales Street are recommended alternatives for access to SR-60. Through traffic should use Lemon Avenue and Nogales Street for north-south travel and Valley Boulevard and Colima Road for east-west travel.

Access to local businesses will be maintained. Motorists should anticipate delays and are advised to plan ahead and use alternate routes.

Construction of the four-lane roadway underpass and four track railroad bridge will reduce vehicle emissions and traffic congestion by an estimated 27.6 vehicle-hours of delay each day due to lowered gates at the railroad crossing, which is traversed by 49 trains per day. Once complete, the project will eliminate collisions, train horn noise and delays for emergency responders and improve safety. Seven collisions have been recorded at the Fairway Drive crossing over the past 10 years.

For additional information regarding the project, please contact the ACE Project Helpline at (888) ACE-1426 or follow construction updates on Twitter @FairwayGS and @ACEsgv.
